April 9, 2009

In this Issue of the Weekly Splash:

1. Registration Update
2. Pool Renovation Updates
3. ICE Meltdown

Registration Update

The CRAA registration web site remains under construction. An email will be distributed once this site is active. Until then, swimmers are encouraged to attend practice without registering.

All new CRAA swimmers and swimmers returning to CRAA who did swim with CRAA during the Fall or Winter Seasons need to join USA Swimming. If you have questions, contact Judy Hackney at 247-2722.

Cedar Rapids Swimming Pools

Jefferson and Washington High School Pools

Practices for all practice groups will continue to be held at Coe. Please note the change in the practice schedule for next two weeks.

Both the pools at Jefferson High School and Washington High School are still down due to renovations. Once CRAA receives approval to begin using either of these pools, the coaches amend the practice schedule. Until then, all groups will continue to practice at Coe College.

Bulkhead at Coe

Many of you already know, but for those who have not heard, the bulkhead in Coe College's swimming pool is in need of repair. The latest news on this situation is that it can be fixed and will be in working order shortly. Until it is working correctly, CRAA will continue swimming widths (20 yard course) during practices. Once again, when the coaches find out more information about this situation, we will communicate it to the team.

ICE Meltdown

Entries for the ICE Meltdown Invitational Swim Meet are due by next Wednesday, April 15. This meet is a Senior meet and is recommended for all Senior Group Swimmers.
